KT70755
8 Amp Solar Panel Regulator, 12V

- Dimensions: 105mmWx60Hx35mmD
- Suitable for panels up to 135 Watts
- Advanced pulse width modulation technology (PWM)
- Adjustable dip switch for pre-setting your battery type
- Suits AGM-GEL-WET-CALCIUM batteries
- Indicating LED's denote charging full and/or fault
- 100% no condensation - potted
- IP65 rated (dustproof & waterproof)

KT70756
10 Amp Solar Panel Regulator, 12V

- Dimensions: 130mmWx100Hx28mmD
- LCD information screen
- Suitable for panels up to 150 Watts
- Selection modes for battery type and LCD screen modes
- 6 LED's denote charging and battery status
- Battery temperature sensor port
- Suits AGM-GEL-WET-CALCIUM batteries
- Indicating LED's denote charging full and/or fault
- 100% no condensation - potted
- IP65 rated (dustproof & waterproof)

KT70757:
20 Amp Solar Panel Regulator, 12V

- Dimensions: 130mmWx100Hx28mmD
- LCD information screen
- Suitable for panels up to 250 Watts
- Selection modes for battery type and LCD screen modes
- 6 LED's denote charging and battery status
- Battery temperature sensor port
- Suits AGM-GEL-WET-CALCIUM batteries
- Indicating LED's denote charging full and/or fault
- 100% no condensation - potted
- IP65 rated (dustproof & waterproof)
